# Purpose-built thermal protection.

## H2Core Expedition Weight

Specifically designed for wearing under drysuits, H2Core Expedition Weight thermal layers keep you warm, comfortable and efficient during cold-weather operations. State-of-the-art Polartec® Power Stretch® fabric stretches in four directions for unrestricted mobility, while custom-cut cuffs and necklines won't interfere with gaskets. The high-loft fleece interior quickly wicks moisture away from your skin, and woven exterior resists pilling and wear from abrasion.

### What is Grizzly sizing?

NRS's Grizzly sizing is designed for the more barrel-chested users and those who need the extra room in the chest, waist and thighs. We manufacture several different wetsuit styles in Grizzly sizes. Also, our Extreme SAR and Extreme Drysuits are available in Grizzly XXL for an even greater range of size availability.

### Bill's Wetsuit Jacket

Combine the Bill's Jacket with any wetsuit for increased warmth in the arms and core. An extended waist and raised collar provides more coverage and protection. Titanium adhesive reflects your body heat back, increasing warmth without adding extra bulk. Heavy-duty YKK® entry zipper and color-coded inner collar for quick size recognition. See p. 4 for sizing.

# The hardest working wetsuit on the water.

Built extra tough to endure the rigors of rescue work, the Rescue Suit provides the ultimate value in thermal protection. Full-coverage 3 mm neoprene delivers winter-worthy insulation, and titanium laminate adhesive boosts the thermal value by reflecting heat back to your body. We build the seat panel with 5 mm neoprene for extra padding and add a ToughTex™ coating for extra durability. Molded polyurethane armor guards the knees and shins. A full-length, double-pull YKK® zipper, along with gusseted wrists and ankles, allows for easy entry and exit. See p. 4 for sizing.

### Workboot

Preferred by river professionals, rescue agencies and Navy Seals, these are the hardest-working river boots on the market today. Features 5 mm neoprene cushioned insoles, synthetic leather and fully molded arched soles combined with outstanding craftsmanship and exceptional NRS design. Lace-up mesh uppers, neoprene, and synthetic leather provide superior ankle support and a secure fit. Heavy-duty lugged soles deliver sturdy protection from sharp rocks, and the 7 mm insole cushions your feet comfortably. You won't find a better shoe for daily use.

Color: black

Size: whole sizes 6-15

**30037.01 / \$79.95**

### ATB Wetshoe

The All-Terrain Boot combines the comfort of a sneaker with the warmth of a wetshoe. The fully molded, arched sole has been reinforced with a boot-style sole to increase stability and comfort during long periods on your feet. 7 mm neoprene cushioned insoles. 5 mm uppers feature glued and blind-stitched seams to keep your feet warm and protected. Heel and toe caps prevent abrasion. YKK® zippers allow easy entry and exit. Hook-and-loop arch strap for a secure fit.

Color: gray

Size: whole sizes. 6-14

**30029.01 / \$69.95**

### Paddle Wetshoe

This easy-on wetshoe provides excellent warmth and protection without added bulk and works well with swim fins. The gusset-backed YKK® zipper opens wide to admit bare feet, wetsocks and drysuit socks. 3 mm neoprene with heat-reflecting titanium adhesive keeps feet warm. A 3 mm thick high-traction sole that wraps up around heel and toe, paired with a 5 mm neoprene insole protects your feet from the hard knocks. Soft, fleece-like VaporLoft™ lining repels water and dries quickly for superior warmth and comfort.

# Special rescues require specialized gear.

## Pick-of-Life Awls

Pick-of-Life awls are for self-rescue, allowing you to crawl on top of the ice using the picks as traction. You can also slide them to someone who has fallen through the ice.

45310.01 / \$21.95

## Oceanid RDC

The RDC rescue boat is remarkably safe, durable and easy to use. It works for so many applications, it may be the only non-motorized boat your department needs. The RDC's ends are open and upturned so that a rescuer can drive the boat over the victim while the victim's head remains above water at all times. It also allows a rescuer to reach into a pour-over from a safe position in the boat. Can be carried easily by one person, and stores in a 2' cube.

- Size: 15'4"L x 48"W
- Tube Diameter: 12"
- Floor Length: 8'
- Access Holes: 22" x 40"
- Air Chambers: 3

## Mustang Ice Commander 9001 03 Suit

The IC9001 is the suit of choice for the Coast Guard, search-and-rescue teams, fire departments and ice rescue professionals. Integral chest harness, ice awl pockets, gloves, reinforcements and attached boots with non-slip soles prepare you for any emergency. It's highly visible, and with a welded nylon shell and removable AirSoft™ foam liner, it's 45% lighter than conventional neoprene suits. Maximum flexibility and performance with additional buoyancy.
